Single User

The CD must be in the CD-ROM drive to access the program.

The copy protection is not always compatible with computers linked to a school network.

Multi User/network licence

The CD can be installed on non-networked computers or those linked to a server. The CD-ROM does not need to be in the drive and a back-up copy can be made of the CD. You can upgrade your licence from single-user to multi-user and offset your initial purchase within 90 days of original invoice date.
